

Paper Lid Forming Machine

This automatic paper lid making machine provides professional paper lid forming solutions. It is designed for efficient and precise production of paper lids for various containers.

Product Overview

High-Efficiency Paper Lid Production

The ZGJ series automatic paper lid molding machine is designed for the efficient production of various paper container lids, including those for soup bowls, instant noodles, and coffee cups. This equipment combines advanced engineering to offer stable performance, a compact footprint, and high-efficiency output. It is an ideal investment for businesses looking to streamline their paper container lid manufacturing process.

Technical Specifications

Production Capacity

50 pcs/min
Rated Productivity

Lid Diameter Range	65-125 mm
Compatible Paper Weight	280-450 gsm
Machine Weight	2800 kg
Packing Size	2350 x 1700 x 1850 mm

Operational Requirements

Power Requirements

Specification	Value
Power Consumption	6.5 kW
Power Source	220V/380V, 50Hz

Working Air Source	0.4 MPa, 0.12 m3/min
--------------------	----------------------

Compliance & Identification

Model Number

ZGJ-60

HS Code	8441309000
