System Overview

Modern Conference Efficiency

This comprehensive paperless conference system is designed to streamline professional meetings through digital document access, real-time collaboration, and secure communication. Featuring high-resolution tablet terminals and a centralized server, it supports advanced functions like biometric authentication, interactive voting, and seamless screen sharing. The system reduces paper consumption while enhancing meeting productivity and data security.

Display & Hardware

Display Specifications

10.1 inches

Screen Size

1920 px

Resolution Width

1200 px

Resolution Height

Key Hardware Features

Full HD, Blue Light Filtering, Capacitive Touch, Ten-point Touch, Dual Stereo Speakers, Metal Body

Security & Authentication

Authentication Methods

- Fingerprint Recognition
- AI Face Recognition
- 128-bit AES Encryption
- WEP/WPA/WPA2 Wireless Security

Conference Management

Supported File Formats

- DOC/DOCX
- PDF
- PPT/PPTX
- XLS/XLSX
- JPG/PNG/BMP
- MP3/MP4/AVI/FLV/WMV

Meeting Capabilities

Attendance Registration • Customized Voting • Screen Sharing • Digital Whiteboard • Internal Messaging • Call Service • Internet Browser

Wireless Connectivity

Wireless Performance

1300 Mbps

Max Transmission Rate

30 m

Stable Communication Distance

Wireless Standards

IEEE 802.11b/g/n, IEEE 802.11a/n, 802.11ac Wave2, MU-MIMO

System Compatibility

Installation Flexibility

- Ceiling Mounting
- Wall Mounting
- Desktop Installation
- POE Power Supply
