

# Passenger Rail Car with Orange Stripe

This passenger rail car is silver with a broad orange stripe. It is designed for transporting passengers.

## Overview

### Passenger Rail Car Overview

This passenger rail car is designed for efficient transit, featuring a distinct, high-visibility orange stripe along its silver-gray exterior. The design includes multiple windows along the side, indicating a spacious passenger compartment suitable for commuter or intercity travel. Its robust construction and bi-level profile suggest a focus on maximizing passenger capacity.
