

Passenger Railway Coach

This passenger coach is designed for use on railway lines. The coach features a streamlined design and modern amenities.

Overview

Modern Passenger Railway Coach

This modern passenger railway coach is specifically engineered for high-efficiency operations on Iranian rail networks. Featuring a streamlined exterior design with a distinctive white and red color scheme, the coach is built to provide a comfortable and reliable travel experience. Equipped with sealed windows and standard railway couplings, it is designed for integration into contemporary passenger train fleets.
