

PC Speakers with Headphone Jack

This multimedia speaker system caters to diverse music tastes. It supports USB, Micro SD, FM, and stereo inputs, providing full-range sound and excellent woofer performance.

Product Overview

Compact Audio Solution

These PC speakers are designed to provide enhanced audio performance for desktop environments. Featuring a sleek silver and black finish, they integrate seamlessly into modern workspaces. The inclusion of a dedicated headphone jack and an accessible volume control knob ensures convenient audio management for music, gaming, and multimedia applications.
