

PC Tower Case

This computer case is designed to house standard PC components. It features a minimalist design with a white front panel and silver trim, along with a front-panel power button.

Product Overview

Modern Minimalist Design

This PC tower case features a sleek and modern aesthetic, designed to complement any professional or home workspace. With its clean white front panel and subtle silver trim, it offers a sophisticated look while ensuring compatibility with standard PC components. The thoughtful design integrates essential controls seamlessly into the front panel for a clutter-free appearance.
