

PCB Mount TV Aerial Socket

This is a PCB mounted TV aerial socket. It features a white plastic housing and a gold-plated center pin.

Product Overview

Professional PCB Mount Aerial Socket

This high-quality PCB mounted TV aerial socket is designed for seamless integration into audio-video equipment. Featuring a durable white plastic housing and a precision gold-plated center pin, it ensures a secure and reliable connection for signal transmission. Its compact design is specifically engineered for efficient PCB mounting, making it an ideal choice for internal device circuitry.

Technical Specifications

Housing Color

White

Mounting Style

PCB Mount

Housing Material

Plastic

Contact Material

Gold-plated center pin

Application

Primary Application

- Television audio-video equipment
- Aerial cable signal routing
- Internal device circuitry connection
