

Pedal-Powered Beach Cart

This pedal-powered cart is designed for recreational use on beaches and similar sandy environments. It features a robust frame, high-back seat, steering wheel, and durable tires.

Product Overview

Pedal-Powered Beach Cart

This pedal-powered four-wheeled vehicle is specifically engineered for navigating sandy terrain with ease. Featuring a robust tubular steel frame and a chain-driven propulsion system, it offers a reliable and fun way to traverse coastal environments. The design prioritizes rider comfort and stability through the inclusion of a high-back seat and intuitive steering controls.

Construction & Design

Frame Material	Tubular Steel
Propulsion System	Chain-driven
Wheel Count	4

Ergonomics

Seating	High-back seat
Steering	Steering wheel

Usage Characteristics

Primary Use	Recreational • Leisure
Suitable Terrain	Sandy, Beach
