

Pen Style Covert Video and Audio Recorder

This digital camcorder is cleverly disguised as a sleek, black and gold pen. It is capable of capturing video and audio, making it suitable for surveillance or documentation purposes.

Product Overview

Professional Covert Recording

This pen-style digital video recorder offers a discreet solution for surveillance and documentation needs. Designed to look and function like a standard writing instrument, it houses a high-quality 0.3 Mega Pixel CMOS sensor capable of capturing clear video and still images. With support for external TF cards up to 32GB and a rechargeable lithium battery, it provides a reliable, portable tool for professional use.
