

# Pendant Mount Speaker

These pendant speakers are designed for suspended mounting, combining aesthetic design with acoustic performance. They are ideal for retail environments and public areas, ensuring consistent sound coverage.

## ADDITIONAL IMAGES

## Overview

### High-Performance Pendant Audio

These active Bluetooth pendant speakers are designed for professional background music systems in open-ceiling applications. Featuring a two-way loudspeaker design with high-quality woofer and silk dome tweeter, they deliver exceptional speech reproduction and clear, controlled audio performance. The system includes an integrated Bluetooth receiver, power amplifier, and security wire rope hanger assembly, making it an ideal choice for commercial spaces, classrooms, and gymnasiums.
