

Perforated Metal Basket

This is a perforated metal basket with a rounded rectangular shape. It is suitable for drainage or ventilation in industrial and storage applications.

Product Overview

Industrial Perforated Metal Basket

This durable black metal basket features a rounded rectangular design engineered for high-performance industrial environments. The perforated bottom is specifically crafted to facilitate efficient drainage and optimal ventilation, making it suitable for a wide range of storage and processing applications. Its robust construction ensures long-term reliability in demanding professional settings.

Physical Specifications

Material Finish	Black Coated Metal
Shape	Rounded Rectangular
Key Features	Perforated Bottom, Drainage Optimized, Ventilation Optimized, Industrial Grade

Application

Suitable Applications

- Industrial parts storage
- Component processing
- Ventilated equipment housing
- Drainage-required storage
