

# Perforated Stainless Steel Waste Bin with Foot Pedal

This stainless steel waste bin features a perforated body for ventilation. It is equipped with a foot pedal for hands-free operation and a removable lid.

## Product Overview

### Professional Waste Management Solution

This durable stainless steel waste bin is designed for professional environments requiring efficient, hygienic disposal. Featuring a perforated body, the bin promotes superior ventilation to reduce odor buildup. Its hands-free foot pedal mechanism ensures optimal sanitation and ease of use in busy commercial or public spaces.
