Product Overview

High-Efficiency Peripheral Pump

This peripheral water pump features an integrated electronic digital water control system, making it an ideal solution for domestic water pressure boosting and garden irrigation. Constructed with a durable stainless steel shell and high-quality plastic components, it is designed for reliable clean water transfer. The unit includes advanced safety features such as dry-running protection and automatic operation, ensuring consistent performance for wells, tanks, or stream applications.

Technical Specifications

Power Output

600 W
Min Power

1200 W
Max Power

Max Flow Rate	3.2 m ³ /h
Max Head	32 m
Electrical Requirements	230V 50-60Hz
Rated Current	1.2 A

Compliance & Safety

IP Rating
IPX4

Certifications
GS, CE, EMC

Features

Control System

- Electronic digital water control
- Alarm indicator
- Pump on indicator
- Power on indicator
- Manual reset button
- Dry-running protection

Materials

- Stainless steel shell
- Plastic pump body
