

Personal Air Purifier with HEPA and Carbon Filtration

This compact air purifier is designed for personal use. It features a multi-stage filtration system with HEPA and activated carbon filters to remove dust, pollen, and odors.

Overview

Compact Air Purification Solution

This personal air purifier is engineered to provide a cleaner breathing environment in small spaces such as offices, small rooms, or vehicles. Featuring a robust multi-stage filtration system, it effectively captures airborne particles like dust and pollen while neutralizing odors. The unit is designed for quiet operation and seamless integration into any professional or personal setting.

Filtration System

Target Pollutants

- Dust
- Pollen
- Odors
