Product Overview

Compact Personal Air Purification

This compact air purification system is designed specifically for personal spaces such as desktops, bedside tables, and small rooms. It utilizes a multi-layer filtration system, including HEPA and activated carbon layers, to effectively capture dust, pollen, pet dander, smoke, and odors. With quiet operation and adjustable fan speeds, it provides a seamless solution for improving indoor air quality in your immediate environment.

Technical Specifications

Rated Power	3.5 W
Power Supply	100-240V 50/60Hz

Performance Metrics

Key Performance Metrics

42 m³/h CADR	5 m² Max Coverage
-----------------------------------	--

Noise Level	39dB(A) - 53dB(A)
-------------	-------------------

Features & Filtration

Additional Features

- Negative ion release
- 2 adjustable fan speeds
- Filter replacement indicator

Filtration System	Pre-filter, HEPA Filter, Activated Carbon
