

Personal Cooling Desk Fan

This desk fan provides focused personal cooling. It features a protective grill, stable base, and adjustable speed settings.

Overview

Compact Personal Cooling Solution

This personal cooling desk fan is designed to provide efficient airflow in close-quarters environments such as office desks or home workstations. Featuring a stable base and a circular protective grill, it ensures safe and reliable operation during extended use. The unit includes a multi-speed control panel, allowing users to customize their cooling experience to suit their immediate comfort needs.
