

Personal Cooling Electric Fan

This compact electric fan is designed for personal cooling. It features a protective grill, multiple speed settings, and an adjustable tilt mechanism.

Product Overview

Efficient Personal Cooling

This compact electric fan is designed to provide reliable air circulation and cooling in various environments. By utilizing a high-efficiency motor to drive the fan blades, it effectively accelerates airflow to relieve summer heat. Its versatile design makes it an ideal solution for maintaining comfort in homes, offices, classrooms, and commercial spaces.

Primary Function

Air Circulation • Personal Cooling

Key Features

Core Features

- Protective safety grill
- Multiple speed settings
- Adjustable tilt mechanism
- Compact, space-saving design

Applications

Suitable Environments

Home, Office, Classroom, Hospital, Retail Shop, Hotel
