

# Personal Cooling Fan with Pedestal Base

This compact electric fan is designed for personal use. It features a three-blade propeller enclosed within a safety grill and is mounted on a pedestal base with a rotary switch for speed control.

## Product Overview

### Compact Personal Cooling Solution

This personal electric fan is engineered for localized cooling efficiency in office, home, or dormitory environments. Featuring a robust three-blade propeller design enclosed within a safety-focused protective grill, it balances performance with user security. The unit is supported by a stable pedestal base and offers intuitive speed control via a manual rotary switch, making it a reliable choice for personal climate comfort.

## Technical Specifications
