

# Personal Cooling Table Fan

This is a portable table fan designed for personal cooling. It features adjustable fan speeds controlled by buttons on the base and a stable circular base.

## Overview

### Compact Personal Cooling Solution

This portable table fan is engineered for efficient personal cooling in professional and home office environments. Featuring a stable circular base and a durable protective grille, it provides reliable airflow while remaining lightweight for easy placement. Users can conveniently adjust fan speeds via simple controls located on the base to suit their comfort needs.
