

Personal Electric Tea Maker

This is a personal tea maker with a 0.5L capacity. It features touch-sensitive temperature settings.

Product Overview

Professional Personal Brewing

This patented 2-in-1 electric tea maker and kettle is designed for personal use, offering a seamless brewing experience. With a compact 0.5L capacity, it features precise temperature control settings and an intuitive touchable LCD display panel. Its efficient heating system and dedicated tea box design ensure optimal flavor extraction for loose leaf tea.
