

Personal Evaporative Air Cooler

This portable air cooler is designed for personal cooling with energy efficiency. It features a water tank that cools air through evaporation, adjustable louvers, and multiple fan speeds for customized comfort.

Overview

Compact Personal Cooling Solution

This personal evaporative air cooler is designed to provide efficient, localized cooling for personal spaces such as desks, nightstands, or small rooms. It utilizes an evaporation-based cooling system in a compact, energy-efficient package that is easy to maintain. With adjustable airflow and integrated lighting, it offers a customizable and comfortable environment for daily use.
