

# Personal Evaporative Air Cooler with LED Lights

This personal air cooler is designed to cool, humidify, and purify the area around you. It creates a local microclimate within a personal space using evaporative cooling and features adjustable louvers and LED lights.

## ADDITIONAL IMAGES

## Overview

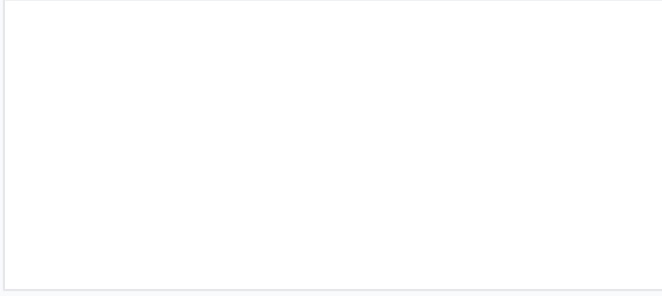

Compact design suitable for desktops and small personal spaces.

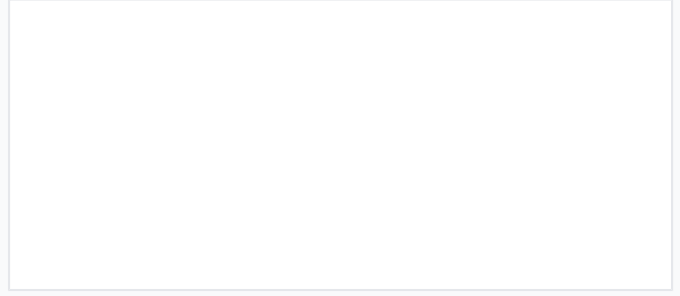

### Personal Comfort Solution

This personal evaporative air cooler is designed to create a comfortable microclimate in areas up to 4 square meters, making it an ideal companion for home offices, kitchens, and study spaces. It combines cooling, humidifying, and air purifying functions into one portable unit, utilizing a 1000ml water tank for extended operation. With advanced features like stepless fan speed control (1-99), customizable LED lighting, and multiple power supply options, it offers a highly personalized cooling experience.

## Performance

Designed for quiet operation during work or study sessions.

Easy-to-fill 1000ml water tank with two convenient refill methods.

### Cooling Metrics

4 j

Coverage Area

13 °C

Max Temp Decrease

125 m<sup>3</sup>/hr

Airflow Volume

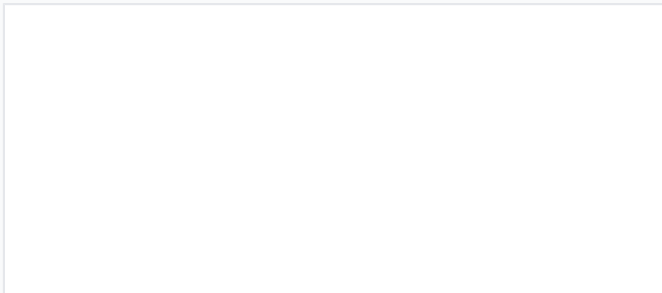

### Water Management

Metric	Value
Capacity	1000 ml
Water Consumption	6-10 hrs
Cooling Duration	7-13 hrs

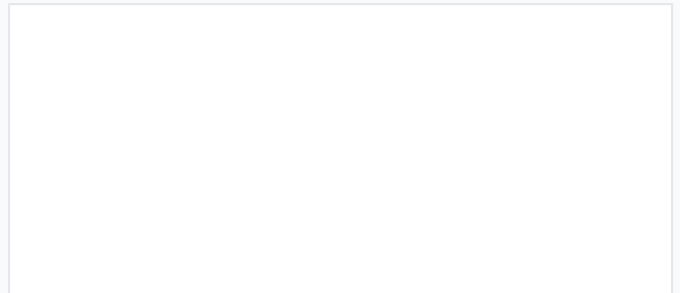

## Technical Specifications

Power Input	DC 5V 2A (USB Type-C)
Max Power Consumption	10 W
USB Cable Length	1.2 m

## Features

Intuitive touch interface with stepless fan speed control (1-99).

Integrated LED lights with adjustable brightness and color settings.

### Fan Control

- Stepless speed regulation (1-99)
- Natural wind mode
- Sleeping wind mode

### Design & Usability

Portable • Adjustable Louvers • Large Tank Entrance • Energy Saving

LED Lighting	7 Colors, Independent Control, Adjustable Brightness, Auto-Cycle
Off Timer	12 hrs
