

# Personal Space Electric Heater

This compact electric space heater is designed for personal use. Its spherical cube design allows for placement on a desk, table, or floor.

## Overview

### Compact Personal Heating Solution

The Personal Space Electric Heater is a compact and portable heating unit designed specifically for localized warmth in small spaces. Featuring a unique spherical cube design, it is ideal for placement on desks, tables, or floors, making it a versatile choice for office or home environments. With user-friendly top-mounted controls and built-in safety thermal cut-off technology, it provides both convenience and peace of mind.
