

Personal Space Heater

This compact personal heater is designed for individual use. It features a front grill for directed airflow, top-mounted vents for heat dissipation, and indicator lights.

Product Overview

Compact Personal Heating Solution

This compact personal space heater is designed for individual comfort in small spaces. It offers versatile heating options with three distinct settings, including fan-only mode for air circulation and two heat levels for temperature control. Equipped with essential safety features like an automatic thermostat and overheat protection, it provides a reliable and safe heating experience.
