

# Personal Tabletop Electric Fan

This compact electric fan is designed for personal or small area cooling. It features a circular grill for safety, multiple speed settings controlled by knobs, and a stable base for tabletop placement.

## Product Overview

### Compact Cooling Solution

This personal tabletop electric fan features a unique, humorous penguin-inspired design that adds character to any workspace or small area. Engineered for convenience and safety, it includes a 360-degree uniform air supply system and a built-in timer for up to 120 minutes of operation. With multiple speed settings and advanced safety features like automatic power-off upon dumping, it provides a reliable and comfortable cooling experience.
