

Personal Tourmaline Steam Room

This personal steam room offers a convenient sauna experience at home. It features natural wood construction, tiered seating, and tourmaline stones for generating heat and promoting relaxation.

Product Overview

A Personalized Home Spa Experience

The Tourmaline Steam Room provides a compact and efficient solution for professional-grade relaxation within your own home. Designed with natural wood construction, it features an integrated control panel for precise management of temperature and session duration. The tiered seating interior allows users to customize their heat intensity, while the specialized tourmaline stones facilitate effective detoxification and stress relief.
