

Pest Control Smoker Sprayer

This smoker sprayer is designed for effective pest control and disinfection. It features a durable stainless steel and metal construction for longevity and resistance to corrosion.

Overview

Professional Pest Control & Disinfection

The 6HYH-70C smoker sprayer is a robust and efficient machine engineered for effective pest control and large-scale disinfection tasks. Built with a durable stainless steel and metal framework, this unit is designed for longevity and high resistance to corrosion in demanding environments. It features a flexible, corrugated metal exhaust pipe for precise spray direction and is mounted on a stable base for reliable stationary operation.

Construction & Design

Build Materials	Stainless Steel, Metal Framework, Corrosion Resistant
Operational Style	Stationary base mounted

Features

Key Features

- Flexible corrugated metal exhaust pipe
- Dedicated fuel tank
- Separate chemical solution reservoir
- High-penetration spray design

Application Suitability

Pest Control • Disinfection
