Overview

High-Efficiency PET Bottle Production

This semi-automatic PET bottle blow molding machine is engineered for high cost-performance, integrating essential compressor, pre-heating, and blowing functions into a single system. Designed for versatility, it is ideally suited for manufacturing PET containers under 2 liters with a consistent output of 800 to 900 pieces per hour. Its compact design and user-friendly digital interface make it an excellent choice for businesses looking to optimize production efficiency and energy consumption.

Performance Metrics

Production Capacity

850 pcs/hr

Average Hourly Output

Maximum Bottle Capacity

2 L

Technical Specifications

Integrated Systems

- Air Compressor
- Pre-heating Unit
- Blowing System

Machine Type

Semi-automatic PET Blow Molding

Model Number

HZ-880

Features

Key Features

High Cost Performance, Digital Control Interface, Uniform Preform Heating, Compact Design, Energy Efficient
