

# Pet Food Processing Line

This pet food processing line is designed for the production of fish feed, cat food, and dog food. The automated system ensures efficient and consistent production of high-quality pet food products.

生产技术参数表 Technical parameter	
Type	LD65-VI twin screw production line / LD85-II twin screw production line
Installed capacity	70KW / 140KW
Output (kg/h)	200kg / 1500kg
Production capacity	100-150kg/h / 300-400kg/h
Overall dimensions	12 x 1.2 x 1.8m / 13 x 1.2 x 1.8m

## ADDITIONAL IMAGES

## Overview

### Automated Pet Food Processing System

This comprehensive pet food processing line is designed for the efficient production of high-quality fish feed, cat food, and dog food. The system integrates multiple stages including mixing, transport, extrusion, roasting, and flavoring to ensure consistent product quality. Its automated design streamlines the manufacturing process, making it an ideal solution for scalable pet food production.

### Suitable Applications

Fish Feed • Cat Food • Dog Food

## System Components

### Production Line Components

- Mixer (Blending)
- Screw Conveyor
- Double-Screw Extruder
- Air Conveyor
- Three-Layer Electrical Roasting Oven
- Automatic Flavoring Line

### Extruder Systems

Material Feeding, Backlog System, Rotary Cutting, Heating System, Transmission, Lubrication, Control System

## Technical Specifications

### Model Comparison

Model	Capacity (kg/h)	Installed Power (KW)	Consumption (KW)	Dimensions (m)
LD65-VI	120-150	70	45	12 x 1.2 x 1.8
LD85-II	300-400	140	110	13 x 1.2 x 1.8
