

# Pet Food Production Line, 150-2000 kg/h

This pet food production line can produce between 150-2000kg/h. It can create different shapes of pet food by changing the dies in the extruder.

## ADDITIONAL IMAGES

## Overview

## High-Efficiency Pet Food Production

This versatile production line is designed to manufacture high-quality dog, cat, and fish feed with a flexible output ranging from 150 to 2000 kg/h. By utilizing interchangeable extrusion dies, operators can produce a wide variety of shapes, sizes, and textures to meet diverse market demands. The system integrates advanced components from world-class brands to ensure reliable, continuous operation and superior nutritional consistency.

## Key Performance Metrics

### Performance Highlights

**2000 kg/h**  
Max Capacity

**2 Years**  
Warranty

**150 kg/h**  
Min Capacity

## Technical Specifications

### Model Specifications

Model	Installed Power (kw)	Real Power (kw)	Output (kg/h)	Dimensions (mm)
ZH65	35	22	150	39000x1200x2200
ZH70	50	37	250	41000x1500x2200
ZH85	110	75	500	Not Specified

## Process & Workflow

### Production Process Flow

- Mixing system
- Extrusion system
- Drying system
- Flavoring line
- Cooling line
- Packing machine

## Component Quality

### Electrical & Mechanical Parts

Siemens Main Motor, ABB Relay, Delta Inverter, Schneider Electric Parts, Omron Components, 38 CrMoAl Screw, Nitriding Treatment

## Raw Materials

### Compatible Raw Materials

- Flour
- Corn Meal
- Meat Meal
- Fish Meal
- Bone Meal
- Soybean Meal
- Wheat Bran
- Starch

## Equipment Advantages

### Technical Advantages

- High flexible shielding cable (works -75°C to 115°C)
- 95% signal shielding scope for motor protection
- Wear-resistant barrel with bushing to extend screw life
- High-strength 38 CrMoAl nitrided screws
- Electrical wiring compliant with IEC and ANSI standards

## Compliance & Shipping

### Quality Standards

CE Certified • SGS Verified • GB/T29450-2013 • Food Grade Stainless Steel

### Logistics Preparation

- Machine fixing
- Protective film wrapping
- Wooden case packing
- Logo painting
- Forklift loading
