

Petrol Water Transfer Pump

This high-performance petrol water pump is designed for efficient water transfer. It features a robust engine for reliable operation and a durable pump housing for long-lasting performance.

Product Overview

High-Performance Water Transfer Solution

This petrol-powered water pump is engineered for efficient fluid transfer across a variety of agricultural and industrial environments. Built with a robust engine and a durable pump housing, it ensures consistent, reliable performance for demanding tasks. It serves as an ideal solution for irrigation, drainage, and general water management needs.

Key Features

Construction Highlights

Robust Engine • Durable Housing • High-Performance

Suitable Applications

Agriculture, Industrial, Irrigation, Drainage
