Product Overview

High-Precision Brass Compression Fittings

These Pex-Al-Pex brass compression fittings are engineered for secure, leak-proof connections in plumbing and hydronic heating systems. Manufactured using advanced forging methods and machined on digital lathes, each unit ensures consistent quality and dimensional accuracy. Designed for durability and corrosion resistance, these fittings are a reliable choice for professional plumbing installations.

Technical Specifications

Available Sizes

- 16mm x 16mm
- 20mm x 20mm
- 25mm x 25mm

Product Code

SV-PF1105

Manufacturing Method

Forging

Finish Color

Original

Quality Assurance

Machining Technology

Digital Lathe Machined • Standard Gauge Checked

Custom Production Services

- Custom drawing and sample production support
- Free mold and tooling development
- Sample mailing cost reimbursement
