

Pick and Place Nozzle for SMT Machines

This pick and place nozzle is designed for automated surface mount technology (SMT) assembly. It ensures reliable component handling and accurate placement on the circuit board.

Product Overview

Precision SMT Assembly Component

These high-precision pick and place nozzles are engineered for optimal performance in automated surface mount technology assembly lines. Designed to facilitate accurate component placement, these nozzles help minimize production errors and reduce downtime. Constructed from high-quality, durable materials, they are built to withstand demanding industrial environments while ensuring consistent, long-term operational efficiency.

Key Features

High-Speed Compatibility, Precision Engineered, Wear Resistant, Accurate Component Placement, Extended Service Life

Compatibility

Available Nozzle Models

Series	Part Number
101	E3501-721-0A0
102	E3502-721-0A0
103	E3503-721-0A0
104	E3504-721-0A0
105	E3505-721-0A0
106	E3506-721-0A0
201	E3551-721-0A0
202	E3552-721-0A0
203	E3553-721-0A0
204	E3554-721-0A0
