

Pink Spherical On-Ear Headphones

Pink wireless headphones featuring a spherical design with integrated controls. These ear-phones are designed for comfortable listening and portability and are suitable for use with various electronic devices.

Product Overview

Design and Comfort

These pink on-ear headphones feature a unique spherical design that combines aesthetic appeal with functional portability. Engineered for comfortable listening, they are designed to rest gently on the ears, making them suitable for extended use. The unit includes integrated controls for convenient operation and is compatible with a wide range of electronic devices.
