

Pipe Cutter (1/8 to 2 inch)

This pipe cutter is designed for cutting pipes with diameters ranging from 1/8 inch to 2 inches. It features a robust frame, precision cutting wheel, and a comfortable T-handle for easy adjustment and smooth cutting action.

Product Overview

Professional Grade Pipe Cutter

This heavy-duty pipe cutter is engineered for precision and durability, specifically designed to handle cast iron pipes with ease. Its forged malleable steel body offers a perfect balance of strength and reduced weight, making it highly portable for on-site work. The ergonomic, oversized handle ensures comfortable operation and precise adjustments for pipe diameters ranging from 1/8 inch to 2 inches.
