

Pipe Threading Machine

This pipe threading machine is designed for efficient and precise threading of various pipe sizes. Its heavy-duty construction ensures stability and durability for demanding industrial applications.

Overview

Professional Pipe Threading Solution

This robust pipe threading machine is engineered for precision and efficiency in industrial pipe fabrication. Featuring heavy-duty construction and a reliable self-oiling system, it ensures consistent performance and extended die life across demanding applications. Its quick-change die head system enables rapid size adjustments, making it an ideal choice for plumbing and construction professionals working with steel and stainless steel.

Technical Specifications

Die Head & Die Configurations

Model	Die Head/Die Type	Capacity Range
TQ100-BDF	2014 (BSPT)	1/2"-3/4", 1"-2", 2-1/2"-4"
TQ100-CDF	27103 (BSPT)	1/2"-3/4", 1"-2"
TQ100-CDF	2014 (BSPT)	2-1/2"-4"

Threading Capacity	1/2 inch to 4 inches
Compatible Materials	Steel, Stainless Steel

Features

Key Machine Features

- Self-oiling system for consistent lubrication
- Heavy-duty construction for industrial stability
- Quick-change die head for rapid size adjustments
- Powerful motor for reliable operation
