Product Overview

Heavy-Duty Pipe Vice

This heavy-duty pipe vice is engineered for the secure clamping of pipes and various cylindrical objects. Built with a robust cast iron construction, it offers exceptional durability and stability for demanding work environments. Equipped with hardened steel jaws, it ensures a firm grip and long-term resistance to wear, making it an ideal tool for professionals in plumbing, construction, and metalworking.

Technical Specifications

Construction Material	Cast Iron
Jaw Material	Hardened Steel
Mechanism Type	Adjustable Screw

Applications

Usage Type

Heavy-Duty • Industrial

Suitable Industries	Plumbing, Construction, Metalworking
