

Pipe Vise with Adjustable Support Bar

This heavy-duty pipe vise is designed for secure pipe holding and cutting. The adjustable support bar provides added stability for longer pipes, preventing sagging and ensuring accurate cuts.

Product Overview

Professional-Grade Pipe Vise

This heavy-duty pipe vise is engineered for secure pipe holding and precise cutting in demanding plumbing, construction, and industrial environments. Featuring robust cast-iron construction and hardened steel jaws, it ensures a firm, reliable grip for various pipe materials. The integrated, adjustable support bar enhances versatility by accommodating different pipe lengths, effectively preventing sagging and ensuring accuracy during operation.

Technical Specifications

Construction Material	Cast Iron
Jaw Material	Hardened Steel
Clamping Mechanism	Screw-down

Features

Key Features	Adjustable Support Bar, Heavy-Duty Build, Anti-Sag Support, Precision Clamping
--------------	--

Applications

Suitable Industries

- Plumbing
- Construction
- Industrial Maintenance
