Product Overview

Professional Pipeline Solutions

This pipeline joint with flange connectors is engineered for reliable pipe connection and repair operations. Constructed from high-quality ductile cast iron, it offers exceptional durability, fire resistance, and a long service life. Designed to meet international quality standards, this component is suitable for various industrial piping systems requiring secure and leak-proof assembly.

Material & Construction

Material	Ductile Cast Iron
Key Properties	Anti-fire, Corrosion Resistant, Long Life

Technical Standards

Compliance
EN545

Applications

Compatible Applications

- Pipe coupling
- Flange adaptor
- Quick connection
- Gibault joint
- Pipe repair
- Dismantling joint
- Clamping
