Product Overview

Industrial Pipeline Oil Transfer Solution

This high-performance pipeline oil transfer pump is engineered for reliability and durability in demanding industrial environments. Constructed with sturdy cast iron, it provides a consistent and efficient flow for various oil types and viscosities. Designed for ease of integration, it features flanged connections and a high-performance electric motor with heat-dissipating cooling fins, making it an ideal choice for oil refineries, chemical plants, and power facilities.

Technical Specifications

Housing Material	Cast Iron
Motor Features	Electric Drive, High-Performance, Cooling Fins

Installation and Compatibility

Suitable Industries

- Oil Refineries
- Chemical Plants
- Power Generation Facilities

Connection Interface	Flanged
