Product Overview

Versatile Pistol Grip LED Work Light

This pistol-grip LED work light is an essential tool designed for precision and flexibility in demanding environments. Featuring a pivoting head for adjustable beam angles and a rechargeable battery system, it provides reliable, energy-efficient illumination for automotive repair, DIY projects, and emergency tasks. The rugged construction, combined with hands-free mounting options like strong magnets and an integrated hanging hook, ensures it performs effectively in any workspace.

Technical Specifications

Power Source	Rechargeable Battery
Charging Interface	USB
