

Pivoting Stainless Steel Measuring Cup Set

This set contains four stainless steel measuring cups connected by a pivoting hinge. The cups are graduated in size for versatile culinary applications.

Product Overview

Professional Measuring Solution

This stainless steel measuring cup set features a unique pivoting hinge mechanism, allowing for convenient access and storage while keeping all components together. Designed for durability, these graduated cups offer reliable and consistent volume measurement for high-volume culinary and baking environments. Their robust construction ensures long-term performance in demanding kitchen settings.

Technical Details

Material	Stainless Steel
Cup Count	4
Model Number	SK9810-4T
