

Pizza Cone Forming Machine

This machine forms pizza cones using stainless steel. It features adjustable mold temperatures and an automatic alarm for safety.

Product Overview

Professional Pizza Cone Forming Solution

This pizza cone forming machine is engineered for efficiency and consistency in commercial food environments. Constructed from durable 304 stainless steel, it ensures hygiene and longevity while offering advanced Italian technology for superior performance. With adjustable mold temperatures and an automated alarm system, it provides a safe and flexible solution for restaurants, food trucks, and snack businesses looking to expand their menu with portable, crispy pizza cones.

Technical Specifications

Performance Highlights

160 pcs/h Production Capacity	3 kW Power Rating	4 pcs Mould Count
---	-----------------------------	-----------------------------

Forming Time	15 s
Voltage	220V, 50Hz

Physical Attributes

Dimensions	500 x 380 x 1000 mm
Machine Weight	50 kg
Construction Material	304 Stainless Steel

Features

Suitable For

- Cake Rooms
- Bread Rooms
- Beverage Stores
- Fast Food Restaurants
- Western Restaurants
- Leisure Food Stores

Safety & Control	Auto Alarm, Emergency Stop Button, Button Control, Adjustable Temperature
