

# Plastic-Coated Handle Axe

This axe features a durable metal head designed for chopping and splitting wood. The plastic-coated handle offers a comfortable and secure grip, enhancing durability and resistance to weather conditions.

## ADDITIONAL IMAGES

## Product Overview

### Professional Grade Utility Axe

This versatile axe is engineered for efficiency and durability, featuring a robust metal head designed for precise chopping and wood splitting. The ergonomically shaped, plastic-coated handle minimizes user fatigue during extended outdoor tasks, while the weather-resistant coating ensures longevity in demanding conditions. Ideal for camping, gardening, and general utility work, this tool combines safety features like a protective blade cover with practical design elements for easy storage.

## Design & Ergonomics

### Handle Features

- Ergonomic shape
- Two-tone plastic coating
- Textured grip surface
- Integrated hanging hole

### Color Scheme
