

# Plastic Extrusion Die Head with Plastic Sheets and Shower Cabin

This machinery includes a plastic extrusion die head, essential for shaping molten plastic. Also featured are plastic sheets and a modern shower cabin that incorporates plastic components.

## Product Overview

### Integrated Plastic Manufacturing Solutions

This versatile manufacturing set includes a precision-engineered plastic extrusion die head, essential for shaping molten plastic into specific profiles. The package also features high-quality plastic sheets suitable for thermoforming and fabrication, alongside a modern, fully enclosed shower cabin. This combination offers a comprehensive solution for both raw material processing and finished product assembly in industrial or commercial applications.

## Technical Details

### Included Components

- Plastic Extrusion Die Head
- Plastic Sheets
- Fully Enclosed Shower Cabin

### Primary Applications

Plastic Extrusion, Thermoforming, Fabrication, Bathroom Fixtures

## Shower Cabin Features

### Design Features

- Fully enclosed structure
- Integrated shower fixtures
- Built-in seating area
- Modern design
