

# Plastic Injection Molds for Furniture

Plastic injection molds designed for manufacturing furniture. These molds facilitate the efficient production of durable plastic chairs and tables.

## Overview

### High-Precision Furniture Injection Moulds

These professional-grade plastic injection moulds are engineered for the efficient and high-quality production of durable furniture components. Designed to support a variety of designs, the set includes specialized tooling for both square table tops and ergonomic chair structures. This versatile solution is ideal for manufacturers looking to streamline their furniture production process with reliable, consistent results.

## Product Range

### Available Mould Models

- Square Table Mould (359)
- Chair Mould (262)
- Chair Mould (260)
- Chair Mould (259)
- Chair Mould (201)
- Chair Mould (200)

### Applications

Plastic Furniture, Table Manufacturing, Chair Manufacturing, Injection Moulding
