

Plastic Machinery Component 75 X 4.0 and 110 X 5.0

This product is a plastic machinery component, featuring specifications of 75 X 4.0 and 110 X 5.0. The length is 4000 mm with a tolerance of ± 10 mm.

Product Overview

Precision Plastic Machinery Components

These high-quality plastic machinery components are engineered for durability and precise fitment in industrial applications. Available in two primary configurations, 75mm and 110mm outer diameters, they feature a consistent wall thickness of 5.0mm to ensure structural integrity. Each component is manufactured to a standard length of 4000mm, adhering to strict tolerance standards of ± 10 mm for reliable performance.

Technical Specifications

Dimensional Specifications

Specification	Nominal Outer Diameter (mm)	Wall Thickness (mm)	Length (mm)
75 X 4.0	75	5	4000 \pm 10
110 X 5.0	110	5	4000 \pm 10

Length Tolerance	± 10 mm
Available Diameters	75 mm, 110 mm
