

# Plastic Machinery Parts Envelopes

Envelopes designed for organizing and protecting plastic machinery parts. These translucent envelopes feature a flap closure and rounded corners.

## Product Overview

### Versatile Storage Envelopes

These translucent plastic envelopes are designed for the organized storage and protection of small parts or documentation within industrial environments. Featuring a simple flap closure and rounded corners, they provide a secure and accessible solution for keeping essential components or paperwork together. Their durable construction ensures reliability in demanding machinery maintenance settings.

## Physical Attributes
