Overview

High-Performance Modular Conveyor Belt

This modular plastic conveyor belt is engineered specifically for demanding applications in the food and beverage industry. Designed for durability and hygiene, it features an open-grid surface that facilitates efficient cleaning and drainage. With a high load capacity of up to 1.2 tons per square meter and resistance to extreme temperatures, it provides a reliable, maintenance-free solution for various production environments.

Technical Dimensions

Pitch	25.4 mm
Thickness	8.6 mm
Minimum Width	84 mm
Rod Diameter	4.5 mm
Open Area	42 %

Material & Compatibility

Approvals

FDA • EU

Available Materials	PP, POM, PE, PA
Available Colors	White, Blue, Gray, Nature, Dark-brown

Performance Metrics

Maximum Load Capacity

1.2 tons/m²

Max Load

Working Temperature

-40°C to 260°C

Configuration

Sprocket Specifications

- Sprocket Sizes: 12T-2R, 18T-2R, 20T-2R
- Bore Types: Square bore, Round bore

Belt Features

Feature	Status
Flight	No
Side Guard	No
Curve	No
