

# Plastic Profile for Machinery

Precision-engineered plastic profile designed for machinery applications. It is manufactured from durable plastic material to ensure longevity and reliable performance in demanding industrial environments.

## Product Overview

### Precision-Engineered Plastic Profile

This precision-engineered plastic profile is specifically designed for demanding machinery applications. Featuring a complex cross-sectional geometry, it provides essential functionality for sealing, guiding, or structural support within plastic and rubber machinery. Manufactured from durable plastic material, it ensures longevity and reliable performance in industrial environments.

## Dimensions

Overall Height	9 mm
Internal Height	4.2 mm
Top Width	3.5 mm
Base Width	14.8 mm

## Key Features

### Material Characteristics

Durable Plastic • Industrial Grade

### Primary Applications

Sealing, Guiding, Structural Support, Machinery Components

## Technical Metrics

### Cross-Sectional Dimensions

**9 mm**

Overall Height

**14.8 mm**

Base Width
